

Call for Papers

Workshop on pensions and ageing

COLOQUE
RETRAITE ET VIEILLISSEMENT
édition 2023

OCT 19th - 20th | 15, quai Anatole France
2023 | 75007 Paris

The seminar is open to contributions in the field of the economics, sociology and demography of pensions and ageing, covering the following themes:

- economic and demographic cycles, public transfers and private transfers linked to the ageing of the population,
- financial management of pension schemes (funded schemes, reserves),
- demographic aspects of retirement (life expectancy, differential mortality, conjugal behavior...),
- the labour market, end-of-career and retirement (career paths, ageing workforce, health at work, arduous jobs, employment of older workers, working in retirement, employer behavior and early retirements...),
- retirement behaviour,
- eligibility conditions according to professional status (employees, civil servants, self-employed workers...),
- macroeconomic modelling of the financing of retirement systems,
- microsimulation modelling of pensions and ageing,
- inequalities in retirement and ageing (inter and intra-generational inequalities, gender issues...),
- savings, assets and preferences,
- living conditions of pensioners, residential mobility, housing conditions, entry into nursing homes, isolation,
- social participation, sharing of domestic work within households,
- ageing and health,
- financing and provision of long-term care,
- impacts of reforms.

The selection of contributions will be based on a complete paper.

Contributions should be sent to the following address: workshop2023@caissedesdepots.fr
and this no later than **April 16th, 2023.**

Contributions may be either in **English or French.**

The **selection committee** will announce the contributions chosen by early **June, 2023.**

➤➤ Please distribute this “call for papers” widely.
